Professor Thomas D. Claeson  
Department of English  
The College of Wooster  
Wooster, Ohio

Dear Professor Claeson:

I am trying to track down a book? or article? with the title, or on the theme "The Beehive World". It should be an imaginative account of the future, over-populated earth. Can you give me any suggestions or clues which might help me locate the source? Professor J. Max Patrick of New York University suggested that either you might be able to provide the answer, or would perhaps be willing to publish the question and thus elicit this information.

Many thanks for any help or suggestions.

Sincerely,

Joshua Lederberg  
Professor of Genetics
